

Department of Botany and Plant Pathology
Fall 2018 Seminar Series

Thursdays 4:00 pm

ALS 4001

Coordinator: Jeff Anderson (anderje2@science.oregonstate.edu)

Sept. 20th	NO SEMINAR – BPP FALL WELCOME
Sept. 27th	BPP Faculty/Lab Introductions
Oct. 4th	<p>George Kral, Ph.D. student of Aaron Liston, BPP, OSU Title: <u>Landscape genomics of two alder species: a case study in climate driven range shifts</u> AND Megan O'Malley, Ph.D. student of Jeff Anderson, BPP, OSU Title: <u>New insights into the role of <i>gacA</i> as a global regulator of <i>Pseudomonas syringae</i> virulence</u></p>
Oct 11th	<p>Dr. Chris Smart, Professor, Dept. Plant Pathology & Plant-Microbe Biology, Cornell University Title: <u>Leveraging genomic data to help farmers manage Phytophthora blight</u></p>
Oct. 18th	<p>Dr. Linda Kinkel, Professor, University of Minnesota Title:</p>
Oct. 25th	<p>Dr. Rusty Rodriguez, CEO, Adaptive Symbiotic Technologies Title:</p>
Nov. 1st	<p>Dr. John Ridenour, Senior Graduate Student, Dept. of Plant Pathology, University of Arkansas Title:</p>
Nov 8th	<p>Dr. John McDowell, Professor, Virginia Polytechnic Institute Title: <u>Exploring how an oomycete pathogen manipulates plant hormone signaling</u></p>
Nov. 15th	<p>Dr. Allen Milligan, Senior Research Associate Professor, BPP, OSU Title: <u>Evolution of photosynthesis in the heart of hydrothermal darkness</u></p>
Nov. 29th	<p>Justin Preece, Faculty Research Assistant with Pankaj Jaiswal, BPP, OSU AND Dr. Sushma Naithani, Senior Research Assistant Professor, BPP, OSU Title: <u>What Can Plant Reactome Do For You?</u></p>
